**Message:**

November is a nationally recognized month that seeks to draw attention to the many challenges facing family caregivers. National Family Caregiver month highlights the need to advocate for community programs that support family caregivers. It is also a time to thank, support, educate, and celebrate more than 50 million caregivers across the country and the approximate 336,000 in Oregon. Please refer to the Administration on Aging website for more information and resources for your FCSP. This can be found at: <http://www.aoa.gov>
